

6MP Fisheye Network Camera

The 360° panoramic camera with high-definition image-capturing capability adopts an ultra-wide-angle lens. It can shoot 360° panoramic views, achieving blind-spot-free monitoring. It supports multiple output modes and bit rate settings, adapting to different requirements for image quality and fluency in various scenarios. The device is equipped with high-efficiency infrared lights for 360° omnidirectional light compensation. The irradiation distance can reach up to 5 meters, enabling real-time day and night monitoring. It is widely used in the CCTV monitoring of the rail transit industry.

- High quality imaging with 6MP resolution.
- Efficient infrared lamps with a long service life, providing 360° all-round supplementary lighting.
- Smooth bitstream settings to adapt to different scenarios.
- Clear imaging against strong back light based on 120 dB WDR technology.
- Water and dust resistant (IP66) and vandal resistant (IK10).
